Modern Building just 4 years old! Modern technologies, means less hassles.

This stylish property is very cool and offers an alternative design and finish. The compact downstairs living area spills out to a massive entertaining terrace, which effectively triples your living space.

Upstairs there are two bedrooms, both with separate climate control via your own split system air conditioners. The Master Bedroom has a wonderful walk-in-robe, views to Black Mountain across the leafy inner north. The western sun is taken care of via the motorised external metal louvre
